

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of the Claims:

Claim 1 (Original) A granulate detergent product comprising coated granules which comprise a functional core which comprises one or more deterative agents selected from surfactants, softening materials and detergency builders, the coated granules further comprising up to 10% by weight of a coating which comprises encapsulated perfume.

Claim 2 (currently amended) A granulate detergent product according to claim 1, wherein the coating comprises up to 5%, ~~more preferably up to 2%, still more preferably up to 1%,~~ by weight of the coating.

Claim 3 (previously presented) A granulate detergent product according to claim 1, wherein the coating further comprises unencapsulated perfume.

Claim 4 (previously presented) A granulate detergent product according to claim 1, wherein the encapsulated perfume comprises melamine-urea-formaldehyde microcapsules.

Claim 5 (Original) A granulate detergent product in which at least 10% of the total number of granules are coated granules which comprise a functional core which comprises one or more deterative agents selected from surfactants, softening materials and detergency builders, the coating comprising encapsulated perfume.

Claim 6 (previously presented) A particulate detergent composition comprising a granulate detergent product according to claim 1 in admixture with one or more other solid ingredients.

Claim 7 (previously presented) A particulate detergent composition comprising a granulate detergent product according to claim 1, from 0 wt% to 30 wt% of a linear alkylbenzene sulphonate surfactant and from 10 to 70% by weight of a detergency builder by weight of the total detergent composition.

Claim 8 (previously presented) A particulate detergent composition comprising a granulate detergent product according to claim 1 and from 10 to 95% by weight of softening material by weight of the total detergent composition.

Claim 9 (Original) A process for making a granulate detergent product, the process comprising:-

- (i) providing a powdered and/or granulated deterative composition comprising one or more deterative agents selected from surfactants, softening materials and detergency builders;
- (ii) preparing a slurry comprising water and an encapsulated perfume;
- (iii) spraying the deterative composition with said slurry to form coated granules.

Claim 10 (Original) A process according to claim 9, wherein the slurry further comprises unencapsulated perfume.

Claim 11 (previously presented) A process according to claim 9, wherein the slurry further comprises a viscosity modifier.

Claim 12 (previously presented) A process according to claim 9, wherein the slurry is sprayed onto the deterative composition in a low shear mixer or a moderate shear mixer.

Claim 13 (previously presented) A process of preparing a detergent composition, the process comprising preparing coated granules by a process according to claim 9 and admixing the coated granules with one or more other solid ingredients.

Claim 14 (Currently Amended) A process according to claim 9, wherein the coated granules are granules according to ~~any of claims 1 to 5~~.

Claim 15 (previously presented) A process according to claim 9, wherein the coated granules are granules according to claim 6.
